Unique Drop vase

"Combine the best of contemporary Finnish design, a world-leading glass blower, and the purest of techniques: free-form mouth blowing, and this is what you get! Without molds and industrial processes, this is glass art at it's absolute finest."

The drop vases were inspired by a profound respect for nature and make a very special gift or collector's item.

Finland's leading glass blower, Kari Alakoski, works in a historic glass factory in Riihimäki, creating Turunen's premier glass designs.

The soul of a thousand lakes – Finnish glass designer has captured our hearts

From the Finnish forests that gave us Iittala, **Tapio Wirkkala** and **Kaj Franck** comes **Panu Turunen's** beautifully minimalistic glass art, handmade to perfection in complete unison with the elements.

Like individual drops of water frozen in time, Panu Turunen's glass art sculptures convey the heart and soul of Finland and evoke a feeling of being at one with nature in its purest form.

Turunen values a respect for tradition as an essential part of his work. He therefore employs Finland's leading glass blower, Kari Alakoski, to bring to life his exquisite glass designs, such as the drop vases.

Working in the old historic glass factory of Riihimäki, Alakoski tames glowing glass lava in the heat of the fire, mouthblowing it into ice cold, crystal clear glass items that carry with them the souls of Finland's thousand lakes.

Inspired by Finnish nature, culture and mythology, Turunen's unique glasses, plates and statuettes adorn homes and art galleries around the world; Finnish glass museum has exhibited his

pieces, and Brillanza Oy with Italian glass designer Carlo Moretti ordered an entire collection. It is plain to see why: these timeless works of art make special gifts as well as outstanding collector's items.

The Finnish artist employs the traditional technique of mouthblowing to shape his glass sculptures, making each and every piece unique.
